These grants shall be allotted to school districts to provide instructional programs for pupils who are identified as needing additional time to achieve the outcomes defined in KRS 158.6451. KENTUCKY EDUCATION TECHNOLOGY SYSTEM (KETS) ASSURANCES AND UNIVERSAL SERVICE ADMINISTRATIVE COMPANY (USAC) E-RATE ASSURANCES

Successful technology plans align the criteria in these eight assurances with the overall education improvement objectives. It is critical that technology planning not be viewed or treated as a separate exercise dealing primarily with hardware and telecommunications infrastructure. There must be strong connections between the infrastructure of the information technology and the professional development, curriculum resources; and effective uses by teachers, students, and school leaders.

1. The local school district establishes clear goals and a realistic strategy for using telecommunications and information technology to improve education. [Section 254 (h)(1)(B), of the Telecommunications Act of 1996, & FCC order 97-157, Paragraph 573] (Web site:<http://www.sl.universalservice.org/apply/>)
2. The local board of education agrees to conform to the guidelines for filtering technologies regarding student and staff Internet access as provided in the Master Plan for Education Technology, including the implementation and maintenance of approved filtering technology in the district and in every school. The local school district agrees to adopt an acceptable use policy in accordance with the guidelines for acceptable use policies as provided in the *Master Plan for Education Technology*. The acceptable use policy contains procedures which will prevent access to objectionable materials, including sexually explicit materials, and shall include, but not be limited to, parental consent for student Internet use, teacher supervision of student computer use, and auditing procedures to determine whether education technology is being used for the purpose of accessing sexually explicit or other objectionable material. The acceptable use policy also contains provisions that prohibit students, faculty, staff and others with network access from using district resources to establish Internet email accounts through third party providers or any other non-standard electronic mail. [KRS 156.160, 98 RS BR 1621 (SB 230), 701 KAR 5:120]
3. Districts are required by state regulation 701 KAR 5:110 to procure only those technologies that meet KETS standards, if a standard for that category has been established, regardless of source of funds as set forth in the *2001-2006 Master Plan for Education Technology*.

4. The local school district has a professional development strategy to ensure that all students, teachers, and administrators know how to use current and new technologies to support educational goals.
5. The local school district assesses the telecommunication services, hardware, software, and other services that will be needed to support education.
6. The local board provides for sufficient funds to acquire and support the elements of technology: hardware, software, professional development, and other services that will be needed to implement the strategy. The board approves the updates and revisions to the KETS Phase I Progress Report and acknowledges a review of KETS expenditures and procurements and certifies, to the best of its ability, the accuracy of these reports. The modifications are submitted to the Kentucky Board of Education for approval. Any subsequent offer of assistance from the state's matching education technology funds is made provided the district continues to have an unmet need as stated in the *Master Plan for Education Technology*. (KRS 157.655)
7. The local district agrees to conform to the KETS Electronic Mail Standards and Best Practices Guidelines. These guidelines communicate the basic standards for statewide electronic mail including State Level Shared Distribution Lists as incorporated by reference into the *Master Plan for Education Technology*.
(<http://www.kentuckyschools.net/KDE/Administrative+Resources/Technology/Master+Plan/default.htm>)
8. The local school district includes an evaluation process that enables the school to monitor progress toward the specified goals and make mid-course corrections in response to new developments and opportunities as they arise.
